

SENSOR TRANSMITTER - Hydrogen Sulphide	H₂S
---	-----------------------

Nominal Range	0 ÷ 50 ppm
Maximum Overload	500 ppm
Sensor	electrochemical cell
Expected Operating Life	2 years in air
Resolution	0.1 ppm
Linearity	100%
Output	4 ÷ 20 mA
Power supply	18 ÷ 30 Vdc
Operating temperature	- 40° ÷ + 50° C
Relative Humidity Range	15 ÷ 90% non-condensing
Pressure Range	Atmosferic ± 10%
Response time	T ₉₀ < 30 sec.
Long Term Output Drift	< 2% signal loss/month
Wiring type	2 wires shielded
Warranty	2 years
Approvals	<ul style="list-style-type: none"> ▪ ISSeP04ATEX036 ▪  II 2GD - EEx d IIC T6 - IP 6X - T85° C ▪ CE
Naval approvals	<ul style="list-style-type: none"> ▪ DNV (Det Norske Veritas) n° A8575

<i>Product codes</i>

Complete sensor with 4-20 mA transmitter in explosion proof housing, with internal onboard display and 3 buttons for one man calibration	102311
Only spare sensors	108310
